DETAILED ACTION

1. Claims 1-9,11-15,17-31 and 50-78 are allowed.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 10,16 and 47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 10 is indefinite because there is no direct antecedent basis for the recitation of "the interposed first dry scrubbing material and the second dry scrubbing material" in claim 1. Claim 16 is indefinite because it recites "said support is in a particulate form" without any correlation to "said support has a divided form" previously recited in claim 15. Claim 47 is indefinite because it recites "a copper oxide/zinc oxide support" without any correlation to "a support" previously recited in claim 43.

4. Claims 10 and 16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 32-49 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the scrubbing composition of Hayes et al. (6,338,312), wherein such composition can be a support impregnated with a strong base, such as KOH (potassium hydroxide).
